

Major Contributions Grant \$750,000 available!

Apply by January 24, 2016

New! Non-profits need only supply 25% equity. Applicants have two years to complete projects.

The Major Contributions Grant helps local governments and non-profit organizations build infrastructure, prepare for emergencies and spur economic development.

Last year, for example, Masset received a grant for airport fencing and community hall upgrades, Port

Clements received money for fire safety gear, and Queen Charlotte received a grant for boat launch improvements.

Full details about how to apply for a Major Contributions Grant are available on our website at gwaiitrust.com. We highly recommend that applicants contact their local director or our chief operating officer, Carla Lutner, to discuss potential projects.
